## DIRECTIONS FOR USE

Only protected handlers may be in the application area. Do not apply this product in a way that will contact workers or other persons either directly or through drift. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

## AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It also contains specific instructions and exceptions pertaining to statements on this label about personal protective equipment (PPE). The requirements of this box only apply to uses of this product that are covered by the Worker Protection Standard.

No reentry interval.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and involves contact with anything treated such as plants or soil is: Long sleeved shirt, long pants, shoes and socks, chemical resistant gloves.

## GENERAL INFORMATION

HEXACIDE™ is a broad spectrum, contact insecticide/miticide. It controls pests such as aphids, thrips, white flies, mites, diamond-back moth, cabbage looper, fall armyworm, beet armyworm and colorado potato beetle.

Limited phytotoxicity testing has not shown plant damage when the product is used at recommended application rates. Before full-scale application, treat a small area and observe for plant damage. Avoid application at blooming.
