**TREATS 185 SHRUBS
FOR USE IN GARDENS**

**PERFORMANCE
GUARANTEED**

CAUTION: KEEP OUT OF REACH OF CHILDREN

**MAKES
ONE
GALLON**

PRECAUTIONARY STATEMENTS: Avoid breathing vapors and do not swallow. Avoid contact with eyes as product may cause eye irritation. Call a physician if irritation persists. Avoid prolonged contact with skin or clothing. Do not apply directly to areas where surface water is present or to intertidal areas below the mean watermark of lakes, ponds or streams. Do not use or store near heat or open flame.

STATEMENT OF PRACTICAL TREATMENT: **IF IN EYES:** Flush with water for fifteen minutes. **IF ON SKIN:** Wash with soap and water. **IF INHALED:** Move to an area where fresh air is available, use oxygen if available. **IF SWALLOWED:** Do not induce vomiting and call a physician.

Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not contaminate water by cleaning of equipment or disposal of wastes.

This product is effective in repelling deer and rabbits that feed on bulbs, flowers, fruits, vegetables, plants, and seedlings. This product is a long-lasting product that protects by providing both an odor and taste barrier. This concentrate will treat up to 185 ornamental shrubs 4 feet tall or approximately 1,875 square feet.

Directions For Mixing and Distributing: Shake container vigorously before mixing. Mix contents with tap water at a ratio of 1 part concentrate to 7 parts water. (16 ounces of concentrate makes 1 gallon of ready to use.) Do not over dilute.

Application directions: Before initial application, spray a small amount of product on each type of plant to make sure product does not damage the plants. Then spray branches, stems and leaves thoroughly from all sides until run off occurs, or until leaves appear wet. Treat at the beginning of each season, as new growth appears, after heavy rains or when apparent additional application is needed. Repeat as necessary. More frequent applications may be necessary as deer and rabbit pressure increases. Do not apply product at temperatures below 42 degrees or in wet or windy conditions. Eye protection should be considered if winds are present. **GUARANTEED PERFORMANCE.**

STORAGE: Store unused product in an area out of reach of children. Do not store in areas where temperatures exceed 90 degrees Fahrenheit.

DISPOSAL: Do not reuse container. Wrap and discard in trash.
