Manufactured by BioSafe Systems LLC 36 Commerce St Glastonbury, CT 06033
Phone: 1.888.273.3088 EPA Registration No. 70299-3 EPA Establishment No. 68660-TX-01

Active Ingredient:
Sodium Carbonate Peroxyhydrate*........34.00%
Other Ingredients:..............................66.00%
Total:.............................................100.00%
*Contains 27.60% Hydrogen Dioxide by weight.

Net Weight: 13 lbs

Reliable & Easy-to-Use!
Kills Algae, Moss, Fungi, and Mold On Contact.

MOSS & ALGAE CONTROL
For Lush, Velvety Lawns
TerraCyte®
Broad Spectrum Algaecide/Fungicide

A treatment for the prevention and control of horticultural diseases in or around the home, and residential lawns

Moss competes with turf and creates thin areas in the grass. Moss growing under ornamental shrubs and in flowerbeds is unsightly. Treatments in the fall or early spring are most effective, as the best time to control moss is when it is actively growing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATION DIRECTIONS
Treats, controls and prevents algae, bacteria, fungi and moss on ornamental plants and turf. Organisms controlled include Algae, Moss, Liver Worts, Slime Molds and their spores.

For Use in Home Greenhouses, Storage Areas and Yards:
Spread TerraCyte on walkways, under benches, on gravel and dirt floors, weed control mats and hard surfaces to prevent and control algae, bacteria, fungi, moss, slime molds, and the odors and conditions that these organisms can cause.

WHERE TO USE:
Lawns, Ornamental Shrubs, Flowerbeds and Walkways.

HOW TO USE:
Apply using a broadcast lawn spreader or as a spot treatment.

Contents covers up to 6500 sq. ft.

PREPARE THE LAWN:
1. Apply TerraCyte to well-established lawns only. TerraCyte is not intended for use on newly seeded or newly established lawns.

2) Cut grass and remove clippings.

TREAT ESTABLISHED ALGAE, MOSS, SLIME MOLDS AND FUNGI:

Either- Place 2 – 4 lbs of TerraCyte in either a rotary or drop spreader. Set spreader adjustment to setting number 2 or 3. Ensure uniform coverage and prevent overlapping coverage.

Or- Sprinkle granules over areas to be treated in lawn, ensuring that a full and even coverage of the moss to be treated is achieved. Use 2 – 4 lbs per 100 square feet, or an area of 100 feet X 100 feet.

Activate TerraCyte with water immediately following application (see Table 1). Water to recommended amount or for at least 10 minutes. Over-watering will dilute the effects.

Wait 3 days until moss turns a rust color and dies. Then rake out dead moss.

(continued on back)
For Plant Beds Areas:
For heavily contaminated beds or benches, distribute 1 teaspoon uniformly per square foot of bed or bench area.

For follow-up or preventative applications, apply 1/8 teaspoon of TerraCyte per square foot on a weekly to bi-weekly basis.

For Mature Potted Plants:
For curative applications, evenly distribute .08 oz or 1/3 teaspoon of TerraCyte over the surface of 8-inch pots; 0.13 oz or ½ teaspoon of TerraCyte over the surface of 10-inch pots.

For follow-up and preventative applications, evenly distribute 0.026 oz or 1/8 teaspoon of TerraCyte over the surface of 8-inch pots; 0.04 oz or 1/6 teaspoon of TerraCyte over the surface of 10-inch pots. Repeat on a bi-weekly basis.

TerraCyte is activated by moisture. Applications must be made over wet surfaces. Thoroughly water soil surface to be treated.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS—DANGER

Corrosive. Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses) and waterproof gloves. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. When prolonged or repeated contact may occur, use chemically resistant gloves and full-body clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to birds. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsates. Do not apply to treated, finished drinking water reservoirs or drinking water receptacles.

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Corrosive. Mix only with water in accordance with label instructions. Do not bring in contact with other pesticides, cleaners or oxidative agents.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in original containers in a cool, well-vented area, away from direct sunlight. Do not allow product to become overheated in storage. This may cause increased degradation of the product, which will decrease products effectiveness. In case of spill, flood area with large quantities of water.

DISPOSAL: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled – Call your local solid waste agency for disposal instructions. To find your local solid waste disposal location call (toll-free) 1-877-Earth911 or visit www.Earth911.org. Never place unused product down any indoor or outdoor drain.

WARRANTY

This material conforms to the description on the label and is reasonably fit for the purposes referred to in the directions for use. Timing, unfavorable temperatures, water conditions, presence of other materials, method of application, weather, watering practices, nature of soil, disease problem, condition of crop, incompatibility with other chemicals, pre-existing conditions and other conditions influencing the use of this product are beyond the control of the seller. Buyer assumes all risks associated with the use, storage, or handling of this material not in strict accordance with directions given herewith. NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY IS MADE.

Filled by weight not by volume. Product may settle after packaging.
